Professional summary

Hi, my name is **Lucky Ardhika**, I'm currently living in Gunungkidul, Yogyakarta. In my free time, I like to study about programming, do some programming, play video games and much more (maybe).

Currently, I finished some personal projects to learn more about MERN (MongoDB, ExpressJS, ReactJS, NodeJS) and Mysql, the 2021, 2022 trend programming properties. You can see some of these projects on my github account which is equipped with a little brief descriptions about them.

Skills

Written and verbal communication

If we work in a team, communication is very important so that we can understand each other, including written, verbal, and programmed communication by creating easy-to-read code as agreed.

Technical knowledge

Some of the technical skills that I master include:

Language:

+ HTML

+ Javascript

Styling:

+ CSS

Focused Frameworks:

+ ReactJS

+ NodeJS

+ ExpressJS

Databases, DBMS:

+ A little about SQL, MySQL

+ NoSQL, MongoDB

Other support tools:

+ Git, Google, StackOverflow, Github CO-Pilot, VSCode

Education

06/2021

IPS

SMAN 1 SEMIN - Gunungkidul, DI Yogyakarta, Indonesia
